# Strength of feeling

"I am Zen"

"Will you return ?"

"The three sisters"

"This way"

"My heart"

"Do you expect it ?"

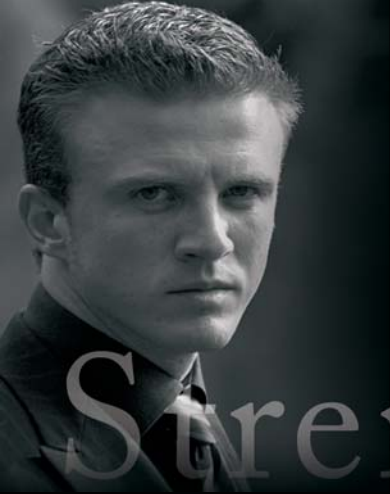

Cédric BAREAU is a contemporary artist who enjoys portraying an atmosphere rather than a simple universe. His work finds its meaning and definition in everyday life.

He is a storyteller, able to express his most secretive emotions through the canvas. With his clear perception, he strives to unlock his own heart, and at the same time open the door to ours with his inner strength.

His abstract art cannot be explained away by a simple mathematical equation, but acts as a fleeting memory that you are unable to pin down, and yet are able to feel and understand distinctively.

Cédric BAREAU enjoys contemplating human nature, and the meaning behind his work differs from one person to another. Material, texture, surface, coloured waves... he uses every means possible to help us join his journey to the heart.

Let us share the strength of feeling.
